

How many trees were planted?

Checking public planting counts against the 100,000-tree pledge

THE CLAIM

“100,000 *sigra fil-ħames snin li ġejjin*”

Partit Laburista, 2022 manifesto, pledge 305

2024 annual count · end-2025 parliamentary answer · snap election 30 May 2026

Planted trees, shrubs, survival and canopy are different measures.

VERDICT

LARGELY SUPPORTED

*Counts confirmed;
~60,000 of 100,000.*

CONTRADICTED

MAIN RESULTS

>8,000

trees reported in 2024

Project Green's release reports this separately from over 25,000 shrubs.

~60,000

trees reported by end-2025

Minister's approximate figure in Parliament; Labour's 2026 manifesto says more than 57,000.

60% / 75%

pledge delivery not shown

Of the 100,000 trees by end-2025, with 75% of the five years gone; the legislature ended on 30 May 2026.

>100,000

shrubs reported by end-2025

Reported separately from trees; not part of the tree pledge.

Not counted

surviving trees or canopy

The records do not provide survival follow-up or a national linked tree register.

FAIR TO SAY

The records confirm the 2024 totals, the pledge and about 60,000 trees by end-2025. The 100,000 was not reached by then, and no later count was found before the legislature ended. Planting is not survival or canopy.

WHAT WOULD SETTLE IT

☐ Publish a project-level tree register for 2022–2026.

☐ Clarify which agencies and projects are included in the 60,000 total.

☐ Report survival, replacement and maintenance for each planting cohort.

☐ Keep shrub totals and tree vouchers separate from planted trees.
